

Seven

Written By: Vaporeon Lugia Krabby

I hurt myself
again
I am sure I felt it this time
Everyone hurts me
I figured I would join them
The pain
It keeps me from thinking
I think too much
I wish I could sleep
Being awake makes me think
I despise my memories
The pain helps me forget
For a moment I cannot remember
and it feels good
My fist hits the wall
4...
5...
It hurts
and I learn to like it

Mewblade to Chaos

Stop telling me she's better
Yeah
I know
Sis' a god
Quit reminding me
It's not funny
I've tried everything
Nothing
What does it take!?!
Why am I not
...powerful
...ageless
...godly
Someday she'll break
then I'll be the better one

Vicebane to his underlings

I love you
I mean it
Really I do
I want to be close to you
Share in our secrets
We've been there
I know how you feel
How it felt
There's no love in that
I'm chasing after
You're chased
Together with others but alone in your heart
We can be lonely together
I told you
I love you
I really
really
mean it
Just one night
You'll see
You'll love me too

Swadeaqua to Mewblade

I hate you
I hate your guts
You took him
You stole him from me
@#\$\$%&
You heard me
You left me alone!
I needed him
He's my life
Stupid @#\$\$%&
You took my meaning to life
And guess what
you don't need yours!
I hate you!
hate
hate
hate
HATE
...
Bitch
.

Demisewan to Mewblade

Somedays I just don't care
You beat me
I get up
I go back down
Standard routine
Those threats are getting old
Didn't someone say
"That won't work anymore"
You can't use her against me
You know if she goes away
I go too
You can't move something that doesn't want to
You know what
I'm done
Done with your empty threats
Go ahead
kill me if you want
I'll curl up and die
and laugh when she comes to get you
Not like I care anyway

Harddense to his superiors

You can't go away
I can't bear to leave you there
I am better than that
Let me help you
I am Vita
I am life
I'm capable of resurrection
I am sure you can get up if you let me
There is nothing wrong with me
right?
I will bring you back
That's what good girls do
Just let me do this
It will be okay
then everyone will see what a good girl I am
Vita Sanguinece to Ice Queen

I am right in all manners
I never asked to be what I am
Give me freedom
Let me find love
Something to hold on to
I will have my every desire
You will not stop me
since I'm going to keep my powers too
A fair trade
considering all you put me through
Everything I want at my whim
Whatever I need
Absolute control
Just need more power first

Iustitia to her guardian
