

## Her wisdom

It is painful for me to watch this play, play-out as those like you come before me, a being of perfection and elegance as if you hold some relevance to the purest embodiment of what those wish to be.

As if any answer i could give you would due, just because it came from me your queen and not some irrelevant fool, but tell me/your beautiful queen/...he who seeks enlighten meant for those who are looked down even by the likes of tools

what purpose do my words have if they are ignored till death brings blade and hardship is the bride you never knew was yours till you opened the door and laid her on the bed like any other newlywed.
